1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joseph R. Ruch on June 23, 2004.

Change the title to: - FLEXIBLE HYDROPHOBIC RESIN WITH SULFONIUM AND PROPARGYL GROUPS-CONTAINING RESIN--.

Abstract, cancel lines 3-7 and line 8, delete "which".

Claim 4, line 1, change the dependency from claim "2" to claim --1-- and line 2, replace, "a compound having an unsaturated triple bond" with --2-butyne-1,4-diol--.

Cancel claims 7 and 8.

2. The following is an examiner's statement of reasons for allowance:

The claims limited to resin (A) having an unsaturated group derived from polybutadiene and/or 2-butyne-1,4-diol overcomes the closest prior art to Sakamoto et al. Patent Nos. 6,168,864 and 6,262,146 and Kawakami et al. The prior art discloses reaction products of propargylic acid or alcohol and a polyepoxide which are not within the ambit of the claimed resin (A) including a polyester polyol having an unsaturated group obtained from polybutadiene and/or 2-butyne-1,4-diol.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
